Professional Summary

Operations and management specialist with more than five years of hands-on experience in import coordination, administrative supervision, and operational project management. Skilled at organizing resources, controlling costs, improving processes, and building effective work systems that support financial stability and operational efficiency. Currently working as Operations and Quality Lead, with a focus on coordination between departments, quality control, and increasing production capacity. Previously helped launch one of the company's operational projects from its first day, and was later promoted to manage it in full — overseeing daily operations, leading the team, and maintaining steady operational discipline.

Professional Experience

Operations & Quality Lead – EduStation | Dammam | March 2026 – Present

- Coordinate between different departments to keep work flowing smoothly and operations well integrated.
- Monitor quality and make sure outputs meet approved standards, handling any issues that come up.
- Support departments in raising production capacity and improving operational performance.
- Manage and develop new administrative costs and keep spending under control.

Administrative Assistant – Import Department, Hermony Import & Export Group | August 2020 – May 2024

- Coordinated import operations and dealt directly with international suppliers.
- Followed up on shipments and supply chains to make sure timelines were strictly met.
- Prepared regular operational and financial reports for senior management.
- Supported financial planning by carefully tracking expenses and cash flow.

Administrative Supervisor – Zurbian Island Restaurant (part of the Group) | May 2023 – May 2024

(alongside core duties at the Group)

- Oversaw the setup of the project's administrative and operational structure from the launch stage.
- Set up standard operating procedures and organized operational resources to ensure efficiency.
- Tracked financial and operational performance regularly to meet growth targets.
- Coordinated daily operations and made sure all departments followed internal policies.

Restaurant & Operations Manager – Zurbian Island Restaurant | May 2024 – January 2026

- Fully managed the project within the company's overall operational framework.
- Led the team and assigned tasks based on clear, well-planned operational schedules.
- Controlled costs and improved the efficient use of available resources.
- Prepared detailed operational performance reports and analyzed results using AI tools to improve the business.
- Tracked cash flow to strengthen financial stability and keep the project sustainable.

Education

Bachelor's Degree in International Business Administration – University of Modern Sciences
| 2026
